

Custom Fiber Optic & Electronic Cable Assemblies

## LITRA BROADCAST SOLUTIONS

High-performance connectivity for a **high-definition world**

**Robust.** Litra custom cable solutions can be found in broadcast, distribution, live event and post production environments throughout North America. The world of broadcast and video production is continuously pushing the boundaries with “next generation” system architectures and ever increasing bandwidth requirements. Maximize your video and production equipment performance with the industry’s most reliable high-density cables and interconnects.

**Rugged.** Today’s modern, multi-platform, high-resolution broadcasting industry is served by a complex production ecosystem. Broadcast and production engineers rely on Litra’s connectivity solutions to deliver digital media services in any environment – from OB trucks to studio to post-production.

Litra offers design, prototyping and manufacturing of custom fiber optic and electronic cable assemblies for high-density, rugged applications.

Create, distribute and deliver the highest quality content without compromise.

Our rapid response team is available 24/7 to fulfill your urgent custom fiber needs with exactly what you need, when and where you need it.

*Fiber Optic Jumpers, Patch Cords & Pigtails*

*MPO/MTP Trunk Cables*

*Broadcast Deployable Systems*

*Rugged Mil-Tac Style Assemblies*

*Hybrid Assemblies*

*Harsh Environment Fiber & Copper Connectivity*

*Modular Advanced Reel System (MARS)*

## QUALITY ASSURED

Every Litra cable assembly is tested and verified to meet continuously evolving industry standards for cabling infrastructure.
