

Custom Fiber Optic & Electronic Cable Assemblies

## DATA CENTER SOLUTIONS

Reliable, high-capacity data cabling from the **only MPO contract manufacturer in Georgia**

**Future proof your data center** with Litra's plug-and-play MPO/MTP™ trunk cables and hybrid assemblies.

As data centers upgrade to 40G, 100G and, eventually, 400G networks, they rely on Litra for the design, prototyping and manufacturing of custom fiber optic and electronic cable assemblies for high-density applications.

**Time is money.** Colocation data center managers count on Litra custom high-capacity connectivity solutions to deliver industry leading performance with fast turnaround times.

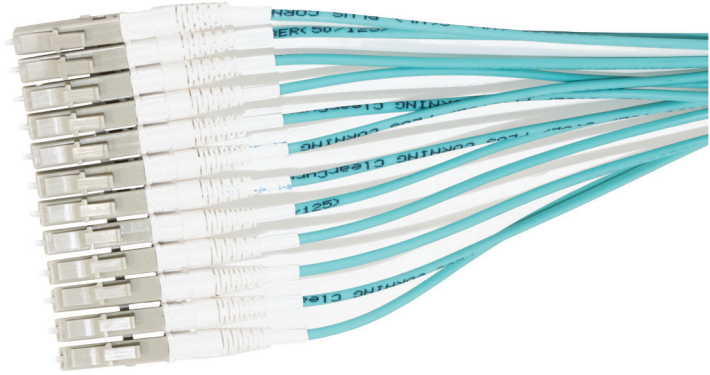

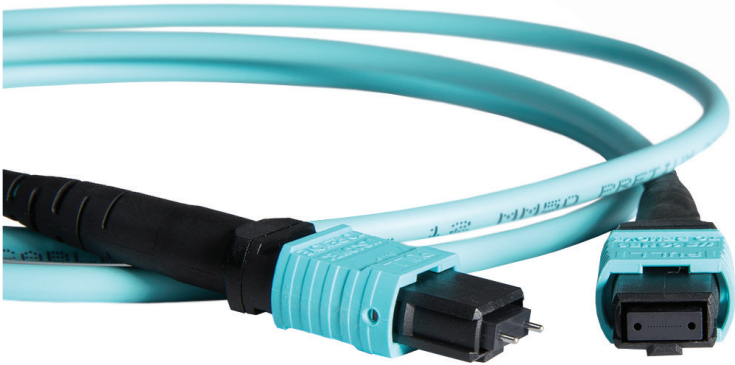

Litra helps data centers make good on the promise of unwavering security, performance and operational reliability. The volume of information moving between virtual machines in a data center is over four times greater than the amount of data being stored. Litra meets the demand for high-performance M2M communication with its custom-built line of MPO/MTP™ fiber optic solutions.

**Untested or inferior MPO/MTP™ assemblies put your data center at risk of costly downtime.**

Our rapid response team is available 24/7 to fulfill your urgent custom fiber needs with exactly what you need, when and where you need it.

Trunk Cables  
Hybrid Breakout Harnesses  
Patch Cords, Interconnects & Pigtailed  
Cleaning Supplies

**QUALITY ASSURED**

Every Litra MPO/MTP™ assembly is quality tested prior to shipping so it's ready to perform the moment it arrives. The geometry of each connector is inspected using the latest in interferometer technology followed by lab-grade power meters that test for insertion loss, back reflection and polarity.
