

Custom Fiber Optic & Electronic Cable Assemblies

## LITRA TRANSPORTATION SOLUTIONS

High-performance connectivity for **transportation and positive train control systems**

**Robust.** Litra custom cable solutions deliver high-speed connectivity for onboard locomotive computer systems throughout North America. As the nation's railroad system drives toward full implementation of positive train control (PTC), Litra ensures performance of wayside interface units and the onboard radios and equipment.

**Rugged.** Litra transportation solutions are designed and manufactured to meet the extreme demands of the railroad environment. Our ruggedized cables and connectors are quality tested and guaranteed to perform in the harshest environments.
